

# CSA Variable Location Size 600mm Long Storage Trays/Bins

## Key features:

- Robust, ergonomic, long lasting design
- Three tray sizes available, each with...
- Positive-fitting, but easily removable internal location dividers, providing...
- Storage locations from “matchbox” through to “milk crate” size.
- Easy tray or location labeling
- Suitable for Industrial, Commercial, Home and Home-Office needs
- Available individually or in bulk quantities

## Size:

There are 3 basic size of storage tray shown above:

- Large Tray: 600mm long x 300mm wide x 140mm high (max 4 locations)
- Medium Tray: 600mm long x 150mm wide x 100mm high (max 8 locations)
- Small Tray: 600mm long x 150mm wide x 50mm high (max 12 locations)

The trays are particularly suitable for 600mm deep shelving, vertical carousels and for pallet racking converted into shelving. Their use in these applications will significantly improve shelf storage efficiency by maximizing the use of its area and volume, and by providing flexible, easy to find stock locations.

It is worth noting that 600mm deep shelving is 43% and 21% more floor area efficient than 300mm and 400mm deep shelving. Also, 600mm deep shelving with the same storage area requires significantly less material and labour. It is therefore cheaper to set up.

- Pricing excludes packaging and delivery, which is order-quantity and delivery location dependent.
- Tray/bins are shipped in cartons that are 630mm wide x 300mm deep x 300mm tall.
- Each carton can hold 2 x large bins, or 6 x medium bins, or 12 x small bins, or any combination thereof.
- Pricing is valid until 30 September 2009 and is reviewed quarterly.
- Supply is subject to our Standard Terms and Conditions of Sale (available on request and as a download from our website).

## Bulk Purchase Pricing:

For business customers we are able to offer a significant discount for quantity purchases. Pricing is available on request.

For bulk purchases the bins are packed on pallets and each bin is fitted with 3 removable dividers to give rigidity. Additional dividers are shipped on the pallet, packed in a carton. Any excess dividers can be returned within 60 days of the purchase and the divider purchase price will be refunded.

The best discount is achieved by buying full pallet quantities of each bin size, as this requires the least amount of handling and repacking of our post-production stock.
